Source: Census 2000 Summary File 3 Tables P7 and P88

* Diversity Index ranges from a value of 0 (for a completely homogeneous population) to 1 (exactly equal distribution of five racial/ethnic categories: white/non-Hispanic, Hispanic/Latino, Black, Asian, and Other). The higher the value, the more evenly distributed each racial/ethnic group is within each geography.

Table A2. ABAG/MTC Estimates: Households and Household Vehicles, 2006 and 2035

Community of Concern			Households		Household Vehicles		Vehicles per Hshld

Notes: Tabulation prepared by MTC Staff based on Census 2000 Public Use Microdata Samples (5% PUMS) and American Community Survey (ACS) 2006 PUMS. Due to sample weighting and expansion, totals for Bay Area households and population used for this table differ slightly from totals calculated from Census 2000 SF3 and ACS standard tabulations

In this table, "adults" refers to household persons 18+, except in minor-only households. For the approximately 400 (in 2006) minor-only Bay Area households, persons 16+ were tabulated here as adults.
